

Accu-matic

- First and best accumulator manufactured.
- Accumulate up to 2" of veneer.
- Adjustable machine speed.
- Automatic or manual machine cycle.
- 100's in use with satisfied customers.
- Operates at today's fast production demands.
- Simple to operate.
- Durable.
- Fits any feeder and hoist.
- Simple installation.
- Backed up by one of the industries finest reputations.
- Service and parts department.
- References available.
- Installation available.

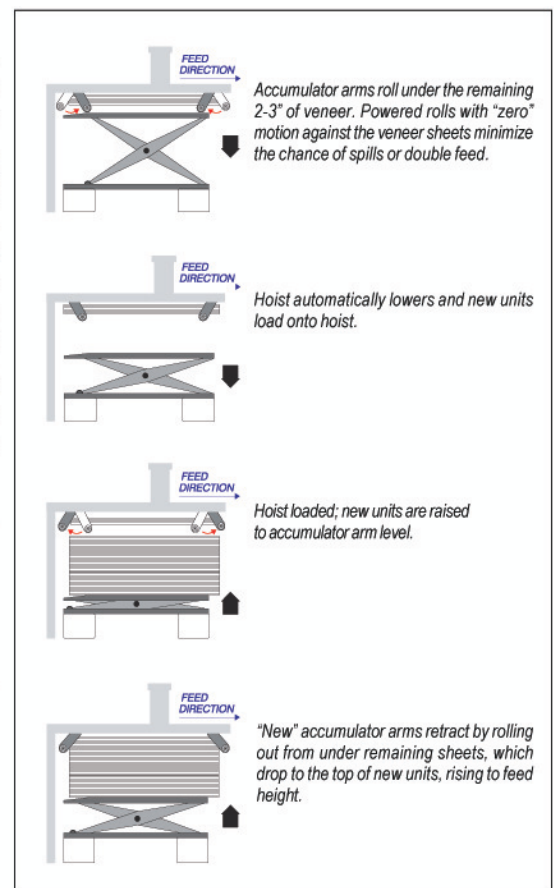

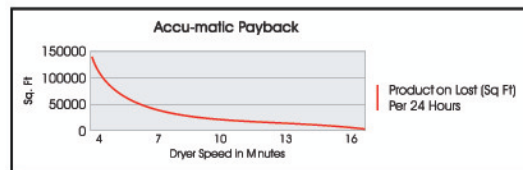

Sweed Machinery, Inc.
#1 in ACCU-MATIC design,
production and service.

Trusted names currently using Sweed Dryer Support products:

Georgia Pacific Corp.
 Weyerhaeuser Co.
 International Paper Corp.
 Roseburg Forest Products
 Boise Cascade Corp.
 Louisiana Pacific Corp.

UNEQUALED LOAD ACCUMULATION

The Sweed Accu-matic will dramatically increase dryer production by keeping a consistent flow of veneer available for dryer feeding. Hot spots and small dryer fires are virtually eliminated because of the consistent flow of veneer through the dryer. As the Giant Hoist is delivering the last few inches of veneer to the dryer feeder, the arms of the Accu-matic roll under the remaining veneer and hold it in position where the operator or Econo-Vac can continue to lift and direct the pieces of veneer into the feeder. The hoist automatically lowers and receives new wet units. Then the new units rise up and under the remnant of the processing unit and become part of the processing stack when the support arms withdraw. When incorporated into a three-shift dryer operation, the Accu-matic can easily pay for itself in four to six months.

INCREASING DRYER PERFORMANCE FOR OVER 50 YEARS

Sweed Machinery manufactures a complete line of dryer support products. Each piece is designed with dryer efficiency in mind. With so many dryer configurations being used in the industry today, the benefit numbers vary. Give the experts at Sweed a call! With a quick review the Sweed panel experts can calculate the best solution to enhance your existing dryer system.
