

# Hoists

## GIANT HOIST

The Sweed Giant Hoist is a hydraulic lifting device designed to maintain constant feeding height into the dryer feeder. The fast down feature reduces the downtime spent waiting for a new supply of veneer. It features sturdy beam construction, with heavy-duty electrically activated transfer chains capable of indexing 18,000-lb. loads.

- Sturdy steel beam construction with heavy transfer chains ensures years of constant service.
- Custom capacities are available.
- Can be ordered with or without power infeed chains.

## SCISSOR HOISTS AND LIFTS

Sweed Scissor Hoists feature a safety-conscious hydraulic lift design. Their thoughtful design and heavy-duty construction ensure that they will not tip, sway, or creep. Sweed offers capacities to 10,000 pounds, and fully adjustable rise and fall speeds. Sweed Scissor Hoists are machined to high tolerances and feature a minimum number of moving parts. Installation is simple. They are the ideal solution to reaching high places with products or machinery. They speed assembly lines and reduce bending fatigue and potential back injuries, all while lowering labor costs and increasing production.

### SPECIFICATIONS OF STANDARD UNITS

	To 4000 lbs	6000 lbs or 8000 lbs	8000 lbs or 10,000 lbs
Collapsed Height	8 <sup>3</sup> / <sub>4</sub> "	10"	12"
Total Rise	42"	45"	60"
Total Height	50 <sup>3</sup> / <sub>4</sub> "	55"	72"
Table Top Dimensions	36" x 78"	40" x 84"	48" x 108"

*Units listed here are production items. Variations in dimensions can be, and have been made to satisfy particular space, load and rise requirements at a modest addition in cost.*
