

# Right Angle Unloader

- Precision delivery straight and true at today's higher speeds—nothing delivers dry veneer with more precision and uniformity.
- Requires less plant space than a conventional straight-out unloader with an off-bear table and cross-transfer.
- Gently straightens veneer.
- Adapts to any veneer dryer.
- Speed is controlled by veneer.
- Handles 4' to 10' lengths.
- Pattern ensures moisture control.
- Reduces veneer breakage.
- Built to last.
- Simple installation.
- Service and parts department.
- Installation available.

## Trusted names currently using Sweed Dryer Support products:

Georgia Pacific Corp.  
Weyerhaeuser Co.  
International Paper Corp.  
Roseburg Forest Products  
Boise Cascade Corp.  
Louisiana Pacific Corp.

## SPACE SAVING EFFICIENCY

The Sweed Right-Angle Unloader systematically unloads the dryer and changes the direction of the veneer flow into the dry-veneer stackers. It eliminates the use of a belted apron and cross-transfer chains and facilitates a one-person grading operation in place of a multi-person pulling operation and cart handling. When plant floor space is limited, a Sweed Right-Angle Unloader provides all the features of Sweed's Straight-Out Unloader but with the added benefit of being able to change the material flow direction upon exiting the dryer.

## Straight-Out Unloader

The Sweed Straight-Out Unloader is designed to fit into practically any existing installation; only minor modifications of the existing outfeed belt are usually required. They are completely self-contained and operate independently of the dryer.

Each charge of veneer exiting from the dryer is realigned in the unloader and then discharged onto the dry belt.

This orderly discharge virtually eliminates splitting or excessive breakage of valuable veneer.

## INCREASING DRYER PERFORMANCE FOR OVER 50 YEARS

Sweed Machinery manufactures a complete line of dryer support products. Each piece is designed with dryer efficiency in mind. With so many dryer configurations being used in the industry today, the benefit numbers vary. Give the experts at Sweed a call! With a quick review the Sweed panel experts can calculate the best solution to enhance your existing dryer system.
